

Sinclair Broadcast Group's should not be allowed to air the anti-Kerry documentary or any part of it under the guise of it being part of a "news" program. It is a blatant political campaign ploy to hurt Kerry and help Bush. As such, it should not be allowed.

Please exercise your power and fulfill your duty to the public and prohibit Sinclair from airing the anti-Kerry program.

It is time that the government and its agencies return to serving the people and the constitution and laws rather than serving the corporations.

Thank you.

Robert Taylor
